THE WAR'S SUPREME LESSON: NO MAN LIVETH TO HIMSELF.

The great war in which we are engaged is shedding new light on nearly every problem the world has known. There is hardly a question which men discussed before 1914—from a dog tax to questions of personal morals which has not been newly illuminated by the terrible struggle. The fundamental change is an awakening to the fact that no man liveth to himself; that every man is responsible to his fellows for the use he makes of his talents, his physical strength, his wealth.

We realize now as never before that every man who has weakened his body by disease or dissipation has weakened America and has thereby weakened all the rest of us.

We realize now as never before that every man who has wasted material things, who has made himself poor by extravagance or carelessness has at the same time made the Nation poorer—has weakened America and so has weakened all the rest of us.

We realize now as never before that every man who has failed to contribute to the general wealth and welfare, whether because of idleness and shiftlessness, or ignorance, illiteracy, and lack of training—he, too, has made America poorer, weaker, less powerful, than she would have if he had played a strong man's part; and we are all poorer because of his idleness, shiftlessness and lack of skill and knowledge.

That is the new lesson that the war is teaching us. It is teaching us that human brotherhood is not a mere philanthropic or benevolent abstraction but about the most fundamental of all material facts.

PATRIOTS.

April in Tennessee is the month that proves the patriotism of the farmers. What have they planned to plant?

Returns from the food production drive which the Division of Extension of the University of Tennessee is conducting in cooperation with the United States Department of Agriculture show that farmers with few exceptions are willing to enter heartily into the program which the officials at Washington and at Knoxville

have asked them to undertake. No one is asked to do the impossible, but everyone is asked to increase acreage, and to increase acre yields wherever possible.

Farmers are signing pledge sheets which list the crops on which they expect to increase. Food and feed crops are the ones wanted. When a farmer signs, he gets a red, white, and blue honor card to place in a conspicuous position. This honor card stimulates him to do the things he has promised to do and show his neighbors that he is with our Government in the winning of the war.

No patriot will pass by this opportunity for war service.

HAVE YOU TESTED.

Farmers of Jackson County. The question is still before you. Have you tested your seed corn? It is necessary this year, for the winter has been severe and much of the seed corn is bad frozen germs are common.

No one can tell whether seed corn is bad or not by looking at it. Don't fool yourself. You can't do it. You may be able to tell some bad kernels, but you will miss more than you find.

Test the seed corn. Don't plant it until you know that it will grow. Ask your county agent for directions. If you do not have them. It will pay you to know what you are planting. The farmer who plants bad corn this year is unpatriotic, and as well a very bad business man.

PRODUCE.

Every man, woman and child in Jackson County should seek to be a producer. When you have decided to be one, take these things in mind for accomplishment.

Produce food and feed crops this year for home consumption and for sale. The war asks this of the farms of Tennessee.

Produce in the garden plenty of the staple, non-perishable crops for home use and for market. The war asks particularly that you grow enough to feed your family.

Produce of the perishables only enough to feed your family, but do that. The war demands that you do not ask transportation to carry perishables to market when cars may be needed for other purposes.

Produce, but produce consistently.

FARW BARGAINS

23½ acres of splendid Williamson county land; nearly all level and rich. Railroad by the side of it; about half in grass. All can be cultivated. Big Harpeth river bounds one side. Pure spring water to concrete troughs all over the place and in residence. Fine two-story 8 room, practically new residence; 3 tenant houses; 3 barns and large combination hay shed and cattle barn; tool shed; granary, smokehouse, garage, etc. About 20 miles from Nashville on good road, 1 mile to railroad station.

This is the big buy of the season. Fully ten to twelve thousand dollars in improvements and the land alone is more than worth the price. Only \$27,500; good terms.

178 acres of level rich Sumner Co. land, 1½ miles Hendersonville, Tenn. All in cultivation but about 20 acres grass. All can be cultivated. No rock. Everlasting springs and wells. 5 room house, barn, corn crib, etc. This is splendid land and fine neighborhood. Railroad, electric line, high school and churches at Hendersonville. \$25,000 easy terms.

J. E. SAUNDERS, 311 American Bank Bldg., Nashville, Tenn.

We don't think any one would object to the Mayor having the vacant lots cleaned up on the north side of the square. These lots are loaded with old scrap iron tin cans and what was once a touring car. A stranger remarked the other day, or rather passed a compliment on the town by saying "that it reminded him of a deserted village somewhere in France after a fierce battle with the Huns." We hope the proper authority will see that all the old garbage and junk piles are hauled away at once. The town would look more like a civilized people lived in it. There seems to be no effort at all on the part of the officials to keep garbage and rubbish off the streets and vacant lots. The shape they are in now is enough to cause a stranger to make remarks because they can't help seeing the junk piles before anything else. Old scrapers that were left on these lots after the road commissioners quit work on the roads several years ago, have been stored away on these lots and left there to rust and decay. They seem to think they will have no further use for them and it looks as though they will never be used again.

W. A. Draper, R 4, returned from a business trip to Nashville this week.

NEW GARAGE—I wish to announce to the public that I have opened a garage at my livery stable on the west side of the square. Experienced men in charge who will repair your car and put it in first class shape. Satisfaction guaranteed. When in trouble call Harley Garage on either telephone. Car storage free. If we fail to put your car in excellent running order there will be no charges to pay. - J. H. Harley, Gainesboro, Tenn.

Keep Well

Do not allow the poisons of undigested food to accumulate in your bowels, where they are absorbed into your system. Indigestion, constipation, headache, bad blood, and numerous other troubles are bound to follow. Keep your system clean as thousands of others do, by taking an occasional dose of the old, reliable, vegetable, family liver medicine.

Thedford's

Black-Draught

Mrs. W. F. Pickle, of Rising Fawn, Ga., writes: "We have used Thedford's Black-Draught as a family medicine. My mother-in-law could not take calomel as it seemed too strong for her, so she used Black-Draught as a mild laxative and liver regulator. We use it in the family and believe it is the best medicine for the liver made." Try it. Insist on the genuine Thedford's. 25c a package. E-75

If Germany and her Allies can raise \$20,800,000,000 by a nod of the Kaiser's head, it looks like America could raise \$3,000,000,000 just for the asking.

I. B. Pate has returned to Dallas, Texas, after a week's stay at home.

J. T. Hogg and G. C. Darwin, of the 11th district, were here Wednesday.

News reached the office Wednesday of the death of Birt West of Tracy City, Sunday night. Mr. West was barber here for several months and had made a number of friends and acquaintances who will be grieved to hear of his death. He had been in feeble health ever since leaving Gainesboro.

Dr. and Mrs. H. L. Baugh, of Flynn's Lick, were here Wednesday the guests of Mrs. B. M. Haile.

Mrs. O. G. Fox, of Gladdico, joined the \$1000 W. S. S. club this week. Mrs. Fox lives in a community that is always ready and willing to do the right thing, and one that believes especially in backing up this great government of ours regardless of sacrifice and cost. It is generally understood that the people in that surrounding neighborhood are responding freely to every call.

This is NOT A "Pocket Change War"

It will take Billions and Billions to finance it. More than \$300,000,000 has been appropriated for airplanes alone! How much of this did you subscribe?
